

ITEM 610.08 Network Announcements for Customers of Disconnected IXCs with Feature Group D Service**1. Service Description**

This service provides for a network announcement to be activated when an IXC with Feature Group D is disconnected from SaskTel's network, or otherwise ceases to provide long distance services. In such cases, SaskTel will route all calls destined for the network of the disconnected IXC to a recorded announcement. When customers attempt to place a long distance call on the network of the disconnected IXC, the announcement will inform the customers that the IXC is no longer in service and direct such customers to contact another long distance service provider to establish service and/or to obtain instructions for making immediate long distance calls via casual dialing.

2. Conditions of Service

1. A once-only charge as specified in (1) below is assessed for the creation of the announcement capability. This charge is assessed to each IXC having provided an 'Access Customer CARE Profile', as referenced in Schedule 4 of the CSG Agreement.
2. Each time an IXC with Feature Group D is disconnected from SaskTel's network, or otherwise ceases to provide its customers with access to long distance service, a charge as specified in (2) below is assessed for the activation of the recorded announcements. This charge is assessed to each remaining IXC which has provided to SaskTel, on the date that the announcement is activated, an 'Access Customer CARE Profile', as referenced in Schedule 4 of the CSG Agreement.
