650.12**Busy Line Verification****1. Service Description**

Busy Line Verification is a chargeable service provided by the SaskTel operator upon customer request. The operator will arrange to have the called party's line monitored to determine if a conversation is taking place on that line. The operator will not interrupt a conversation in progress.

2. Conditions of Service

1. Busy Line Verification may be performed by the SaskTel service centre when requested by the police in an attempt to determine if an emergency situation exists.
2. Busy Line Verification charges will not be assessed when:
 - (a) requests are made from the police
 - (b) requests are made from out of province operators
 - (c) it is determined that the line is in a trouble condition
3. Verification services are furnished where and to the extent that facilities exist.
